

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

While the North Schuylkill School District focuses on a voluntary academic summer learning program, there is a process to identify students for inclusion in a summer school program during SHIELD meetings, IEP/GIEP meetings, and/or EL and 504 meetings. The NSSD will also

use input from the after-school program data and classroom data. The SHIELD/SAP meetings will also use the evidence-based interventions to address the needs of student groups most disproportionately impacted and engage, and support all student indicators. First priority and a strong focus to encourage the following groups of students to participate will be goals of the NSSD. Students of low income families, students experiencing homelessness, EL students, students with special needs, students in foster care, etc. We will aim to avoid negative stigma and pitch it as a "special opportunity" rather than remediation to achieve high student engagement with student prizes and motivation to meet gaps in achievement. To address equity concerns, we will also aim to make this a school wide opportunity to help tutored students feel less stigmatized. Classrooms that have been identified as "transitional" rooms will provide program data that will look to ensure needs were met in the areas of focus/grade level standards to be successful, as well as, nutritional and social/emotional needs being met as well. Data will be reviewed during building SHIELD meetings and SAP/ESAP meetings. Feedback in all areas from parents will be analyzed not only during parent/teacher conferences but by surveys and constant contact with our families. The North Schuylkill School District will collect and analyze data and information during SHIELD or SAP/ESAP meetings that focus on groups of students from each grade level. The beginning and middle of year local assessment and benchmark results will drive conversations during those meetings. Reason for chronic absenteeism will be examined and in turn data will be used to target areas of need.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	50	Targeting weakness in grade level standards, building trust with families to support in-person learning, supporting students during key transitions, personalizing Instruction to meet individual needs, emphasizing attendance and focused worktime, aligning with evidence based core curriculum standards, communicating with parents, and using high quality assessments within the Edmentum program.
			Targeting weakness in grade level standards, building trust with families to support in-person learning, supporting students during key transitions,

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children with Disabilities	Academic Growth	20	personalizing Instruction to meet individual needs, emphasizing attendance and focused worktime, aligning with evidence based core curriculum standards, communicating with parents, and using high quality assessments within the Edmentum program.
English Learners	Academic Growth	8	Targeting weakness in grade level standards, building trust with families to support in-person learning, supporting students during key transitions, personalizing Instruction to meet individual needs, emphasizing attendance and focused worktime, aligning with evidence based core curriculum standards, communicating with parents, and using high quality assessments within the Edmentum program.
			Targeting weakness in grade level standards,

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Students Experiencing Homelessness	Academic Growth	15	building trust with families to support in-person learning, supporting students during key transitions, personalizing Instruction to meet individual needs, emphasizing attendance and focused worktime, aligning with evidence based core curriculum standards, communicating with parents, and using high quality assessments within the Edmentum program.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

The following resources will be used to support student growth when the North Schuylkill School District is targeting grade level standards, building trust with families to support students during key transitions, personalizing Instruction to meet individual needs, emphasizing attendance and focused worktime, aligning with evidence based core curriculum, communicating with parents, using high quality assessments; the EdResearch for Recovery - Design Principals Series - Advancing Student Learning and Opportunity through Voluntary Academic Summer Learning Programs, The Accelerated Learning Toolkit, and the Strategies for Using American Rescue Plan Funding to Address the Impact of Lost Instructional Time manual.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
-------------------------	---------------------------	------

Number of Staff Members	Internal/Outside Provider	Role
1	Outside Provider	The Edmentum - EdOptions Academy Teachers and Program will be utilized to target K-12 standards
2	Internal Provider	Regual and special education teachers/coordinators to oversee parent communication and student progress/success

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Progress Reports	Weekly	Positive Progress Reports

6. How will the LEA engage families in the summer school program?

The North Schuylkill School District will provide an "orientation" and overview of the summer program for parents and students. The district will also supply any required resources and will keep in frequent communication with parents on their child's progress.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$35,736.00

Allocation

\$35,736.00

Budget Over(Under) Allocation

\$0.00

Budget Summary

Function	Object	Amount	Description
1400 - Other Instructional Programs – Elementary / Secondary	100 - Salaries	\$4,000.00	Salaries for both a regular and special education teacher/coordinator to oversee the program and ensure parent communication and records of success are included weekly.
1000 - Instruction	500 - Other Purchased Services	\$31,736.00	Edmentum - Ed Options Academy K-12 - PA Standards Aligned - Program
		\$35,736.00
